INTRODUCTION

After successful completion of mandatory system of pre-shipment inspection, the Government of Bangladesh has introduced an optional pre-shipment inspection programme effective from 1st June 2014. This means that Importers in Bangladesh can still use the PSI service and complete an Inspection Order Form (IOF) or Inspection Information Form (IIF) prior to their goods being shipped by their overseas Exporter.

The National Board of Revenue in Bangladesh has withdrawn geographical restrictions on applications for optional PSI meaning that importers can choose the services of any PSI company. Intertek is now able to offer inspection services for Bangladesh importers from all countries around the world. Importers should obtain the blank Inspection Order Form or Inspection Information Form from their nominated Bank. Importers should return their completed forms to Intertek through their respective Banks.

The Intertek office in Dhaka will make the necessary arrangements with their overseas Intertek offices for inspection prior to export.

The value and quality of the goods will be verified and approved and the shipment quantity checked before the goods leave the port of export. Intertek will issue CRFs (Clean Reports of Findings) from the country from where the goods are being shipped to facilitate clearance by the Bangladesh Customs Authority.

Importers will be able to obtain the blank IOF or IIF from the Intertek website, http://www.intertek.com/government/pre-shipment-inspection-for-exports-to-bangladesh/ or directly from the Intertek offices in Dhaka, Chittagong and Khulna. Importers need to return their completed IOF or IIF to the Intertek office in Dhaka.

The Intertek office in Dhaka will make the necessary arrangements with their overseas Intertek offices for inspection prior to shipment. Intertek is at the disposal of all Importers and other economic agents in order to provide whatever additional clarifications may be required.

Advantages of Pre-Shipment Inspection by Intertek

- An Intertek inspection programme creates the confidence among traders that shipments comply with the specifications agreed between the exporter and buyer. This service includes documentary checking which facilitates fault-free international business and reduces delay.

- HS classification and assessing the value of imports is an important part of the customs procedure. Intertek’s expertise in HS code classification and customs valuation helps importers and exporters in determining these factors.

- Intertek’s highly qualified export consultants are ready to assist traders to resolve any technical issues to help expedite the Customs clearance process.

- Bangladesh consumers demand safe, good-quality products and Intertek’s robust pre-shipment inspection process ensures that both products and suppliers meet importer expectations. Container sealing helps to strengthen the security of the goods while in transit.

- With our global presence in over 100 countries, Intertek is able to act as your representative in the country of export to protect your interests. Our PSI programme checks the quantity and quality of goods against Letters of Credit and Invoices so both supplier and importer can have confidence in the shipment.

- Intertek uses state-of-the-art IT and communication systems to ensure that information is rapidly transmitted to our offices around the world giving you fast access to inspection reports and the ability to resolve any problems quickly to minimise shipment delays.

- Intertek is recognized by more than 30 accreditation bodies around the world and is an active member of International Federation of Inspection Agencies (IFIA)

Intertek are best placed to work with importers and their suppliers, wherever they are based, to help them benefit from the smoother Customs clearance that PSI gives.
FREQUENTLY ASKED QUESTIONS

a. How do I start the process?
Blank copies of the Inspection Order Form (IOF) or Inspection Information Form (IIF) are available in Appendix A or from the L/C Issuing Bank in Bangladesh. You should complete and return them to the same bank with a copy of the proforma invoice, purchase order, or the like and letter of credit (obligatory for each consignment), giving full details of the goods to be imported along with their individual unit prices (showing FOB & freight charges).

The Importer must nominate Intertek when opening the Letter of Credit. The Letter of Credit shall contain the following statement:

“Pre-Shipment inspection for quality, quantity, description, classification and price should be carried out by Intertek. The final invoice and packing list should be endorsed by the same company with the number and date of issuance of the CRF”

A copy of the Letter of Credit, IOF and other documents shall be sent by the bank to the local office of Intertek. If the information contained in any of the three documents, (L/C, Proforma invoice, IOF) is incorrect or incomplete, Intertek will request correction by communicating with the Importer and the L/C issuing Bank. The importer will normally be responsible for meeting the cost of the inspection services except in cases where the exporter is under an obligation due to his non-actions or negligence. Details of exact fees payable will be provided at the time of your contact with your nearest Intertek office. (Please see next page for fees and related provisions.)

Please Note: the Proforma invoice must contain an invoice number and date of issuance, the names of the importer and exporter, and detailed quantity and description of goods including brand names.

b. What happens if Intertek find an error in my documents?
If we find an error that prevents us from completing the inspection services we will contact the importer and the L/C opening bank within 24 hours to resolve the situation.

c. Can Intertek inspect consignments shipped from all over the world?
Yes, Intertek can conduct inspections in any part of the world except those countries restricted under Regulatory requirement.

d. Are any goods exempt from PSI?
There are still restrictions on a few goods for optional PSI. However, anyone may contact Intertek Customer Services by email, info.dhaka.gs@intertek.com or call + 88 01730709863 for further information on this.

e. Are any goods prohibited or restricted from PSI?
Yes, there are certain items which shall meet special requirements of import as per the Import Policy Order applicable in Bangladesh. A copy of the Import Policy Order is available at website of the Ministry of Commerce in Bangladesh, http://www.mincom.gov.bd/Polices.php

f. Who pays the Inspection fees?
The importer will be responsible for meeting the cost of the inspection services. Details of exact fees payable will be provided at the time of your contact with your nearest Intertek office.

g. When will the fees can be collected from the Importer?
Intertek will collect the fees once a request for inspection is received. Inspection fees differ due to the inspection at different location. There are categories depending on Blocks as shown in Appendix C for fees purposes only.

h. How do I calculate my inspection fee?
At the first stage, Importers are required to pay fees in advance on the basis of total L/C value. When CRF is issued the charge will be finalised and adjusted according to the CIF price of the goods inspected. For any further details, Intertek Customer Services is at your service.

If any inspection fails due to non-cooperation of the exporter, the exporter will be responsible for the cost of re-inspection and other related fees, when applicable.

i. Do we have to pay fees for partial shipment?
Yes, if several partials are planned then a minimum charge will be applicable. However, the importer needs to ensure that partial shipments are allowed on the Letter of Credit.

j. How is pre-shipment inspection organised?
Upon receipt of the IOF or IIF and supporting documents from the Importer via the bank, the Intertek office in Bangladesh will verify the documentation and organize the inspection in the country of supply.

The Intertek office located nearest to the named Exporter, will contact them to arrange inspection. Complete lists of...
our regional Intertek offices are provided in Appendix B.

Contact with the Exporter will be made via our RFI (Request for Information) letter and must be responded to promptly.

Three(3) working days’ advance notice are necessary to arrange the inspection. Intertek will carry out pricing and coding after the inspection has taken place.

We recommend that the Exporter’s final documents be sent to the Customer Service Centre as soon as they are available.

Where the inspection findings are satisfactory, Intertek will certify and return the Exporter’s final invoice and packing list. The original and copies of the Clean Report of Findings will be sent to Bangladesh Customs via the Liaison Office in Dhaka.

k. What do I do after obtaining the Clean Report of Findings?
The original Clean Report of Findings will be sent to the relevant Customs House and a copy of the report will be sent to your L/C issuing Bank from Intertek Bangladesh.

l. What will happen if my goods arrive without having been inspected?
The Customs Authority in Bangladesh is entitled to carry out post-landing inspection and the goods will be assessed on the basis of their inspection report in Bangladesh.

m. What happens if problems are discovered with the consignment during the inspection process?
If discrepancies are detected, either during the physical inspection of the goods or during the documentary review, and cannot be corrected, Intertek will liaise with the importer about the discrepancies and issue a Non-Negotiable Report of Findings (NNRF), if applicable. An NNRF leads the Customs Authority to examine the goods to ensure the correct nature of the consignment.

If the discrepancy can be corrected, the NNRF can be cancelled and replaced with the Clean Report of Findings.
BANGLADESH
Exporter and Importer Guidelines
May 2014

**PROCESS FLOW CHART**

1. **Importer**
   - Includes Intertek’s name in the letter of credit (L/C)
   - L/C opening bank forwards relevant documents to Intertek Bangladesh office and importer pays fees
   - L/C opening bank forwards relevant documents to Intertek Bangladesh office and importer pays fees

2. **Intertek Bangladesh office**
   - Issue Inspection Reference Number (BDH)
   - Send ‘Request for Inspection’
   - Exporter informs Intertek when shipment is available for inspection
   - Intertek inspector examines goods prior to shipment and prepares report
   - Exporter submits copy of final invoice to Intertek overseas office
   - Inspection results used to finalise pricing and coding

3. **Intertek Overseas office**
   - Report of findings issued
   - Endorse Final Documents

4. **Customs**
   - CRF Send to Customs Copy to Bank
   - Customs
   - Importer pays the duties and other taxes payable
   - Clear the Goods

**End:**
- Exporter
- Intertek Overseas office
- Intertek Bangladesh office
- Importer

---

*Note: The flowchart outlines the process for the exporter and importer to facilitate the inspection and clearance of goods.*
TIMELINE FOR CRF ISSUANCE

<table>
<thead>
<tr>
<th>Event</th>
<th>Timeline</th>
</tr>
</thead>
<tbody>
<tr>
<td>Delivery of the Inspection Order and Proforma from Liaison Office to Issuing Office</td>
<td>Within 1 working day</td>
</tr>
<tr>
<td>For Issuing Offices to arrange a physical inspection after notification from Exporter.</td>
<td>Within 3 working days</td>
</tr>
<tr>
<td>Issuance of CRF</td>
<td>Within 5 working days after receiving of correct final documents from exporter</td>
</tr>
<tr>
<td>Re-issue of CRF</td>
<td>Within 10 working days from the issue date and prior to submission of Bill of Entry</td>
</tr>
</tbody>
</table>

FEES

Inspection fees will be USD 175 for the L/C value worth USD 5000 or less. Inspection fees will be USD 250 for the L/C value worth USD 5000 or Government approved fees as under chart whichever is applicable.

A chart on the Block wise fees is shown below. Block are shown in Appendix C

<table>
<thead>
<tr>
<th>Block Name</th>
<th>PSI Fee (CIF%)</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>0.10%</td>
</tr>
<tr>
<td>B</td>
