

Method of utilize Supply Chain Map

1. At first log in into your KRC account.
2. Inter into the Supply Chain Map window from the KRC dashboard.
3. To observe the basic Supply Chain Map, click on the link of Supply Chain Map which will show the map where symbols are showing the factories according to their product category.

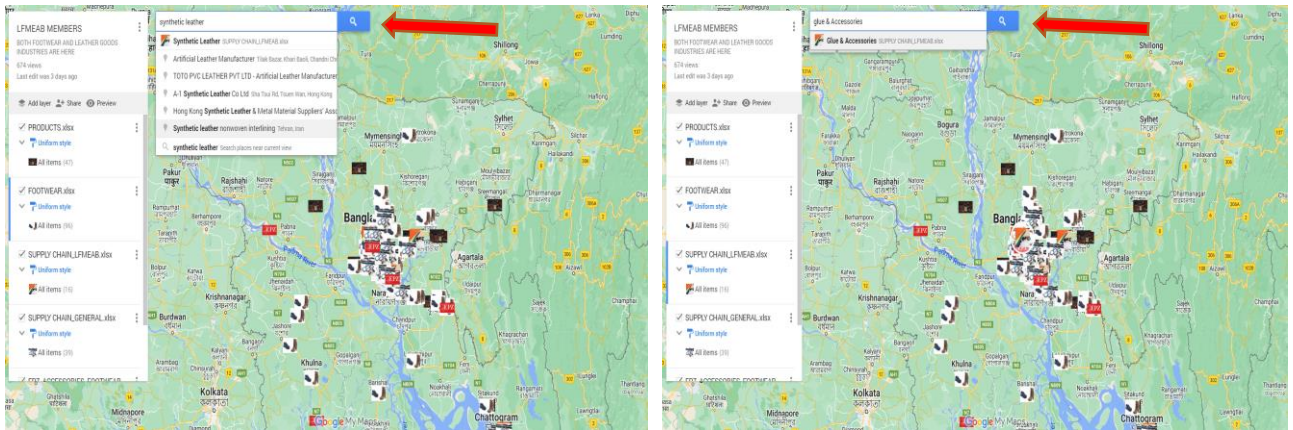

To observe the earth view of this map, please click on the “**View in Google Earth**” and find the Earth view of this Supply Chain Map on the another Tab.

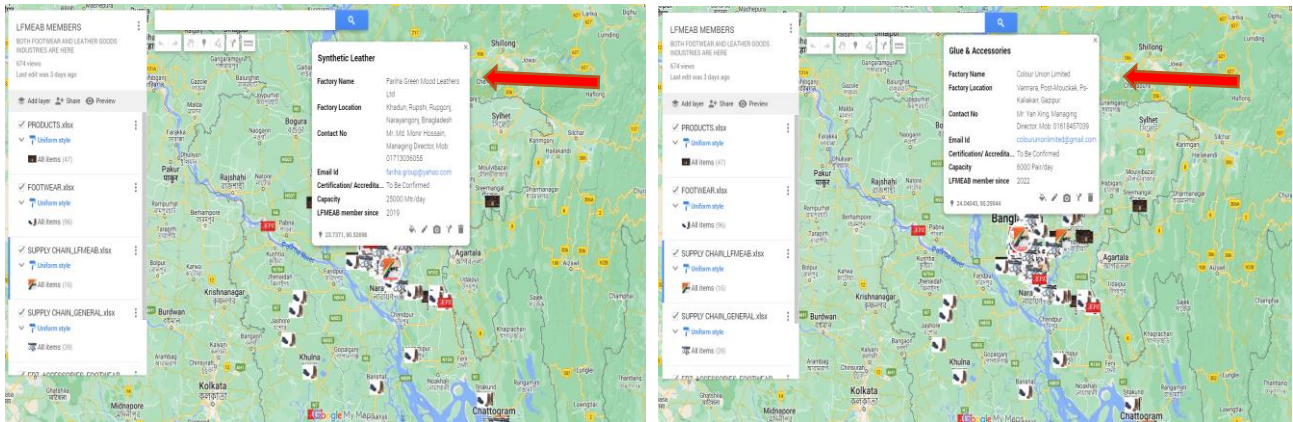

4. To find the details information of a factory according to your required Product/ Raw materials, follow the left side dashboard and search bar. You can find the details information of a factory by searching according to the product category.

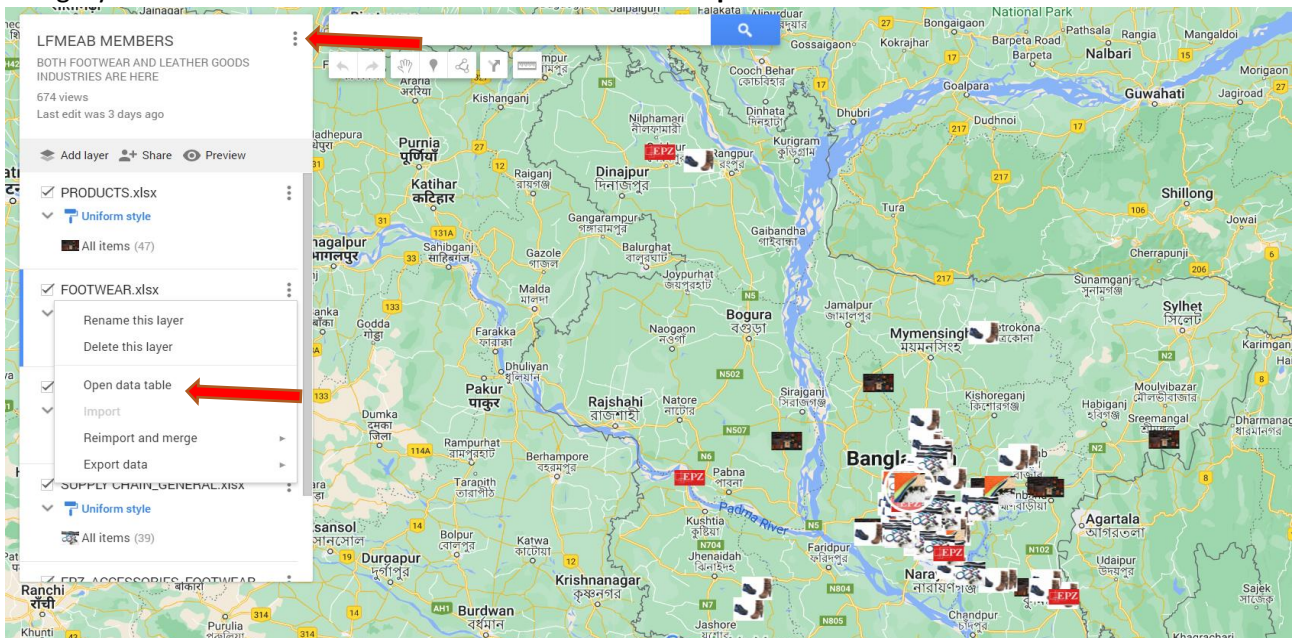

As an example, if you need “**Synthetic Leather**” or “**Glue & Accessories**” manufacturing factory, just write “**Synthetic Leather**” or “**Glue & Accessories**” on search bar. The map will show you the list of factories which are producing your required product.

Then you can select any one factory gradually by clicking on the list and find the details information of factory.

- If you would like to choose one factory which is manufacturing your required product (Footwear) from the list of same product manufacturing factories, you should click on the **three dots** of your required product category of the left side dashboard and then click on the **“Open data table”**.

Then you can find the list of different types of footwear manufacturing factories. After that click on the name of your chosen factory and find the details information of this factory.

The screenshot displays a Google Maps interface with a table of footwear manufacturing factories. The table has three columns: Factory Name, Factory Location, and Product. Row 8, 'Frame House Footwear Ltd.', is highlighted. A red arrow points from this row to a detailed information popup for 'Footwear (Synthetic)'.
