# ANNUAL REPORT

## (FY July 2023-June 2024)

Distinguished Members of the General Body and my dear colleagues in the Board of Directors, ladies, and gentlemen,  
Assalamu Alaikum and good evening.

It is a great pleasure and opportunity for me to welcome you all in the 21st Annual General Meeting (AGM) of the fiscal year 2023-2024 of Leather-goods And Footwear Manufacturers & Exporters Association of Bangladesh (LFMEAB).

In the present context, I would like to apprise you the following issues –

- a) Current global economic outlook
- b) National economic situation
- c) Sectoral export performance
- d) Major activities of the association round the year, and
- e) Financial summary.

### Current Global Economic Outlook

UNCTAD's Trade and Development Report 2024 illustrates that world economic growth slowed from 3.1% in 2022 to 2.7% in 2023, expecting the world economy to maintain the same subdued growth rate of 2.7% in 2024 and 2025, marking three years of stable but stagnating growth. On the other hand, according to IMF, world economic growth slightly slowed from 3.5% in 2022 to 3.3% in 2023 and growth is projected to hold steady at 3.2% in 2024 and 2025. M

Year	2022	2023	2024	2025
UNCTAD	3.1%	2.7%	2.7%	2.7%
IMF	3.5%	3.3%	3.2%	3.2%

In 2023, global demand for goods faced challenges, with a 5% decline in goods trade, due to multiple factors, including global inflation, higher energy prices, geopolitical tensions, and adjustments in supply chains due to “friend-shoring,” which prioritizes trade between geopolitically aligned nations. However, Consumer goods and retail outlook 2024

by Economist Intelligence Unit (EIU) predicts that globally retail volumes will expand by 6.7% in US dollar terms and 2% in volume terms in 2024 due to a slowdown in inflation.

UNCTAD's Trade and Development Report 2024 also reported that major international markets rebounded, including in the trade of manufactured products, services, primary commodities and financial assets and international trade in goods and services is expected to rebound by 2% to 3% in 2024. The rebound is mainly driven by a revival of merchandise trade that accounts for 75% of global commerce in value. Trade in services, on the other hand, is projected to expand faster, at around 5% in 2024.

Trends of the global trade turned positive in the first quarter of 2024, with the value of trade in goods increasing by around 1% quarter-over-quarter and services by about 1.5%. Global trade growth in the first quarter of 2024 was primarily driven by increased exports from China (9%), India (7%) and the USA (3%).

In contrast, S&P Global finds a marked decline in global export orders in 2024 due to several converging economic challenges, including weak demand, inflation, and high-interest rates that have diminished consumer spending across major economies. The broader manufacturing sector globally has responded to weak export orders by scaling back production. S&P Global reported that September 2024 marked one of the steepest declines in new export orders in recent years, with an annualized contraction of 3-4% in trade volumes.

Major economies have experienced a downturn in merchandise trade in 2023. The performance of the top 10 economies in the world in terms of merchandise trade in 2023 is mixed. While China, Germany, Brazil and Italy maintained a positive trade balance,

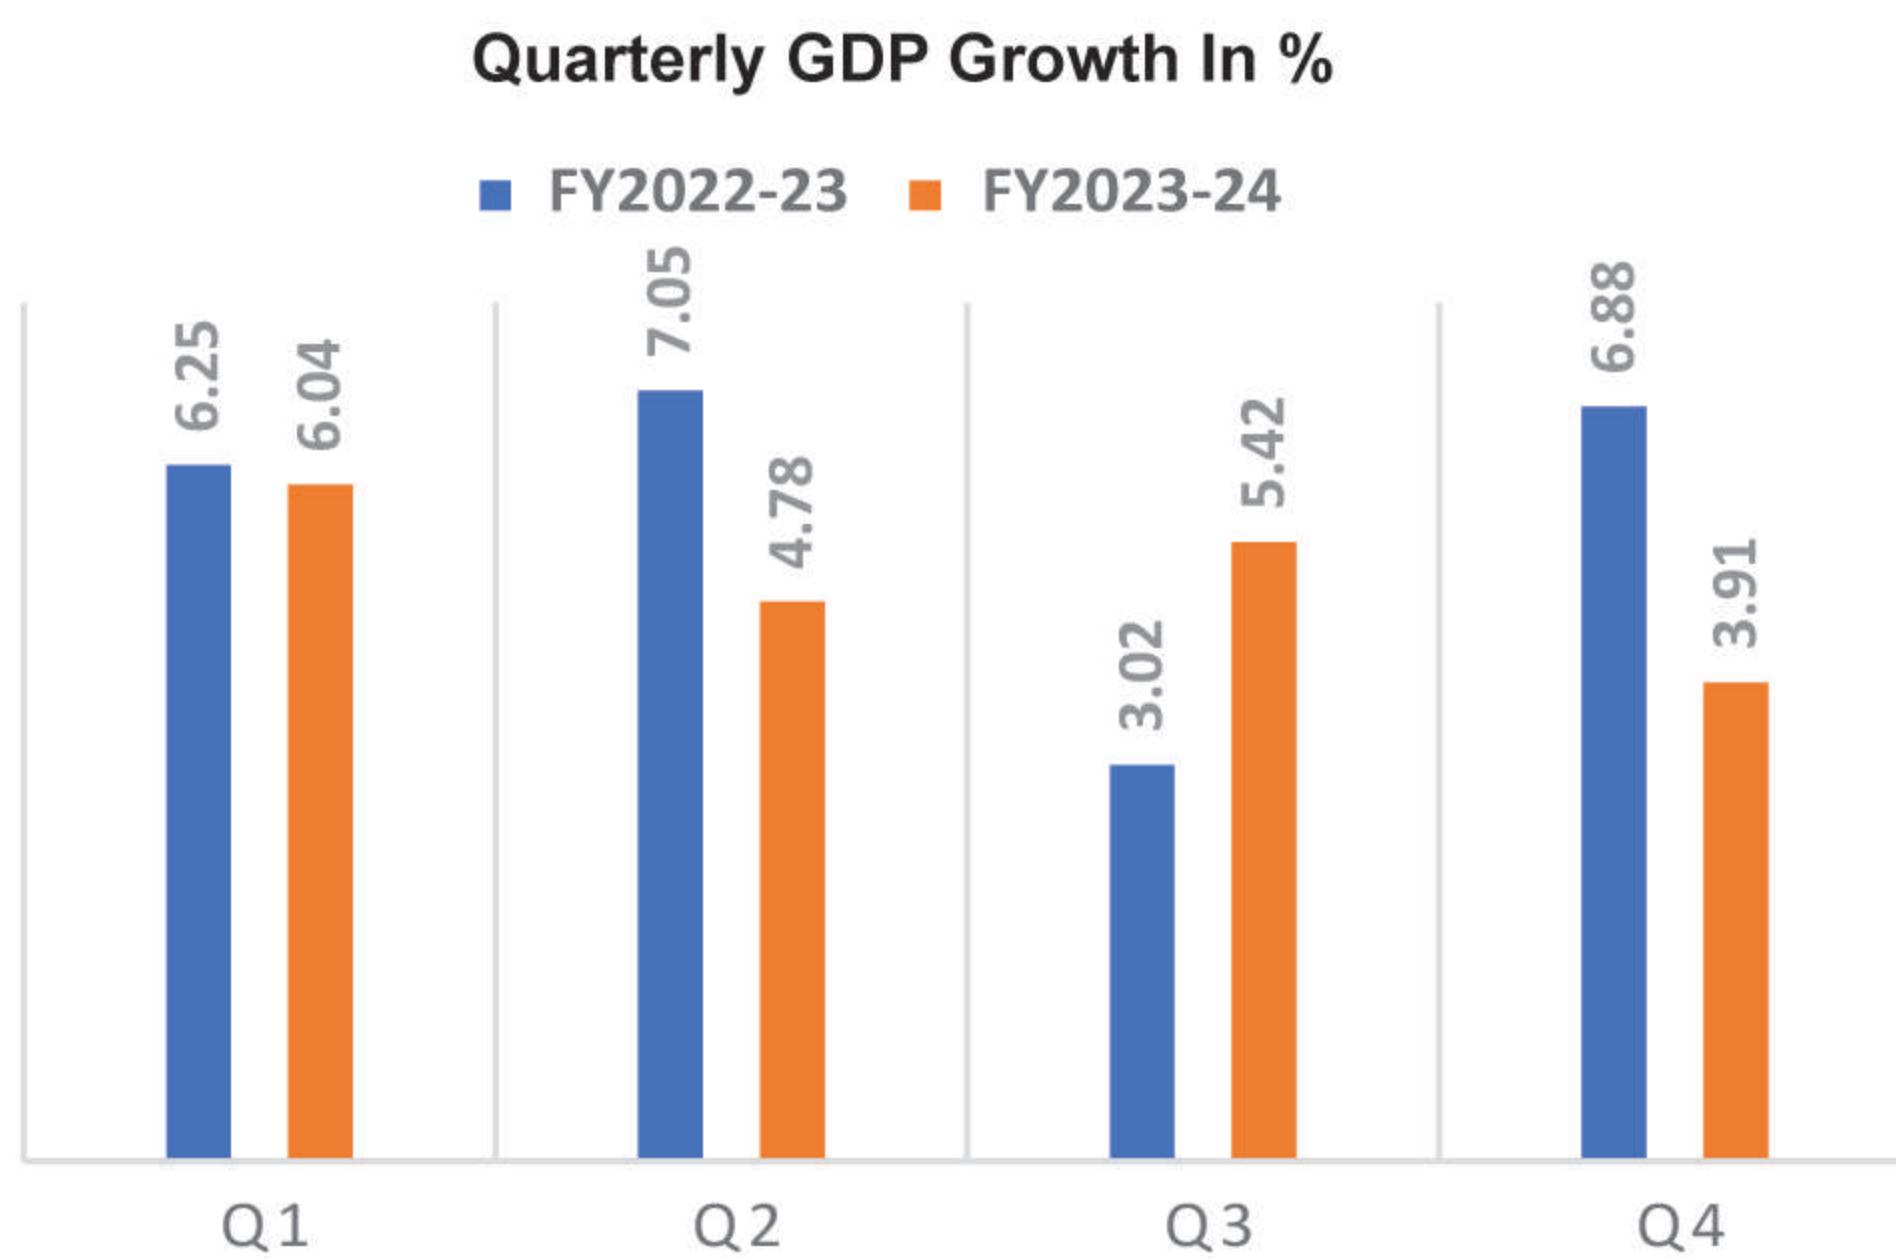

the remaining six countries, namely, the United States, Japan, India, the United Kingdom, France and Canada experienced a negative trade balance. However, the first quarter (Q1) of 2024 shows an upturn in merchandise trade, but only for some. Specifically, imports increased for Brazil, the Russian Federation, and the United States. On the export side, China and India exhibited very strong quarter-over-quarter export performance. Exports also grew for the Russian Federation and the United States. From this aforementioned discussion, it is assumed that slow market demand, sluggish manufacturing and export business at home and abroad could paint a bleak economic scenario in the year ahead.

The global Leather Goods market increased by 5.4% to USD 261.5 billion in 2023, compared to USD 248.1 billion in 2022, according to Global Market Insights. On the other hand, World Footwear Yearbook 2024 reported that global footwear production in 2023 reached 22.4 billion pairs, a 6% decrease over the previous year. The top 10 footwear exporting countries including China, Vietnam and Indonesia all experienced a decline in export volumes in 2023 compared to the previous year. Following this trend, despite the gradually easing of supply chain and commodity price pressures, demand for apparel and footwear will remain weak in 2024 according to Standard & Poor's Consumer Goods 2024 Outlook. This is because consumer spending focuses on staples, services, and travel instead of discretionary apparel and footwear.

### National Economic Situation

Bangladesh's economy has demonstrated remarkable resilience and robust growth in the post-pandemic era, with real GDP expanding by 6.94% in FY2020-21 and 7.10% in FY2021-22, but growth moderated to 5.78% in FY2022-23 and increased slightly to 5.82% in FY2023-24 as per provisional estimates from the Bangladesh Bureau of Statistics against the target of 7.5%. However, according to the World Bank, Bangladesh's GDP grew by 5.2% in FY 2023-24 down from 5.78% in FY 2022-23. Persistent high inflation, substantial depreciation of BDT, and challenges stemming from the Russia-Ukraine conflict, the

conflict in the Middle East, global uncertainty, and adverse conditions such as slower-than-expected growth and rising inflation in key trade partners and remittance sources have led to sluggish GDP growth.

Source: Bangladesh Bureau of Statistics

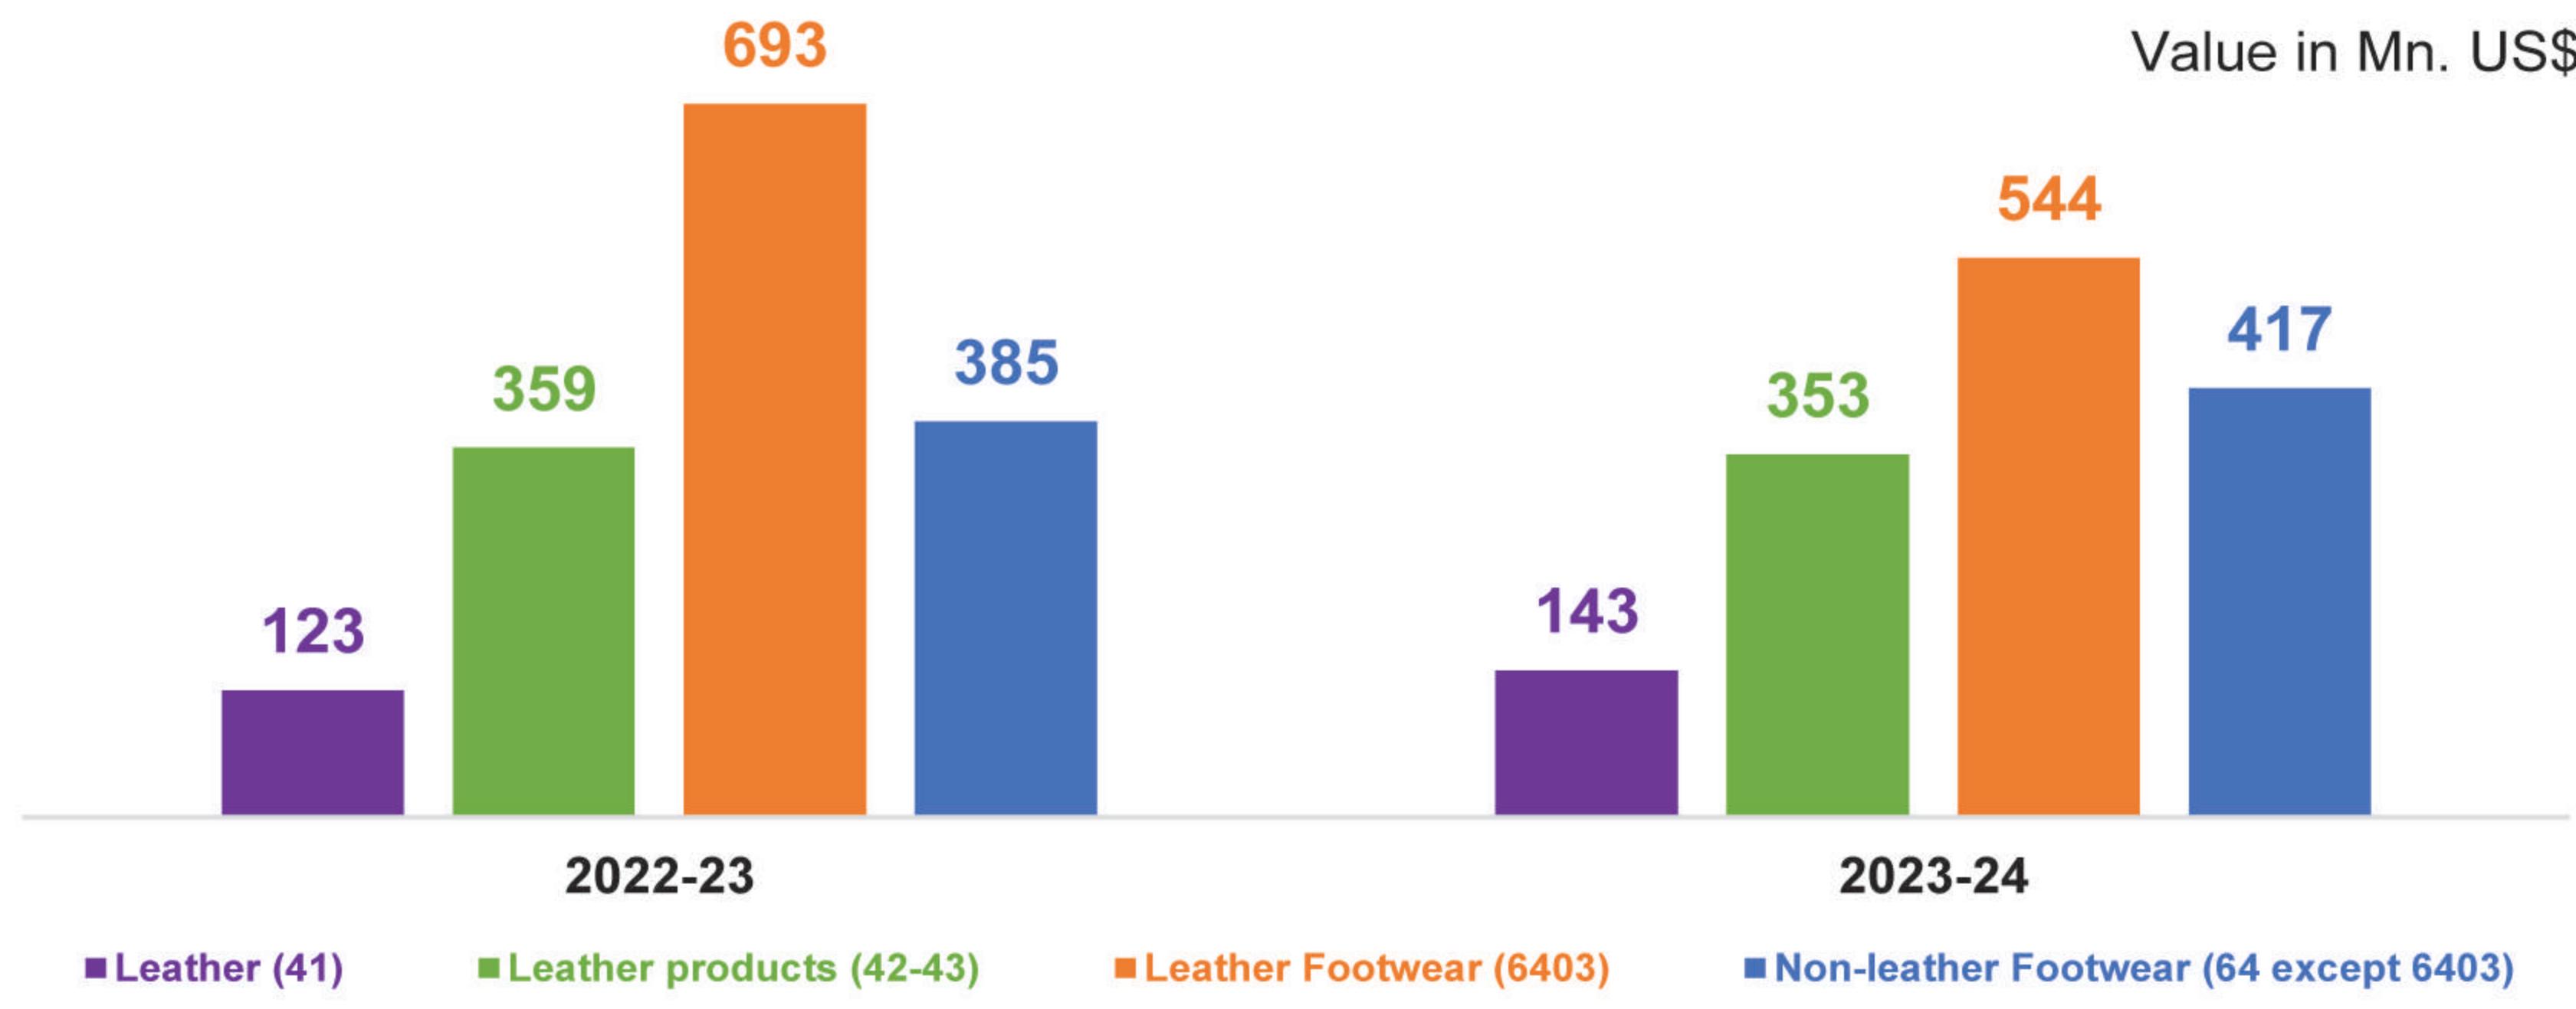

Bangladesh recorded its lowest economic growth in the past five quarters in the last quarter of Fiscal Year 2023-24 due to contractionary monetary and fiscal policies to tackle the dwindling forex reserves and high inflation. Between April and June this year, the GDP grew by 3.91%, compared to 6.88% in SPLY.

According to the Export Promotion Bureau (EPB), Bangladesh earned \$44.47 billion in export earnings in fiscal year 2023-24, seeing a negative growth of 4.27% year-on-year. Furthermore, comparing export earnings with the export target showed a negative growth of 28.27%, which was set at \$62 billion. At the end of June 2024, export earnings dropped by 5.89% and imports by 10.61%. Raw material imports declined by 15.9% in FY2023-24, while capital machinery import fell 23.86%, according to BB's letters of credit settlement statistics. Thus, rising input costs, slow demand, supply chain disruptions stemming from ongoing economic turmoil and geopolitical crisis, and inflationary pressures in key destinations may be termed as the main reasons of this lackluster export performance. Consequently, exporters are going through a tight business situation due to, among others, disruptions in logistic networks and increased shipping costs, inadequate energy supply, high inflation, and rising prices of raw materials.

## Sectoral Export Performance

Export earnings from the country's leather, leather products, and footwear sector witnessed 7% decrease in the FY2023-24, compared to a growth of 0.48% in the FY2022-23.

### **INDEPENDENT AUDITOR'S REPORT**

To the Members of Leathergoods and Footwear Manufacturers & Exporters Association of  
Bangladesh

### **REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS**

#### **Opinion**

We have audited the financial statements of Leathergoods and Footwear Manufacturers & Exporters Association of Bangladesh (the Association), which comprise the statement of financial position as at 30 June 2024, and the statement of comprehensive income & expenditure and statement of receipts & payments for the year then ended, and notes to the financial statements, including a summary of material accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Association as at 30 June 2024, and its financial performance and its receipts & payments for the year then ended in accordance with International Financial Reporting Standards (IFRSs) and other applicable laws and regulations, as explained in **note # 3** to the financial statements.

#### **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Association in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Bangladesh, and we have fulfilled our other ethical responsibilities in accordance with these ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Emphasis of Matters**

1. In note 3.10 to the financial statements, the Association disclosed the reason for their non-obligation for payment of Workers's Profit Participation Fund as per Section 232 of Labour Law, 2006.

1

2. In note 5 to the financial statements, the Association disclosed the reason for not recognizing BDT 19,225 held in the Nagad account of the Association as of 30 June 2024.
3. In note 11 to the financial statements, the Association disclosed BDT 36,942,476 as "General Fund" which inter alia includes BDT 2,884,973 as "Current Year Adjustment" related to transferring balance from "Welfare Fund" (note 13). However, this fund transfer was made without obtaining any board approval.
4. In note 18 to the financial statements, the Association disclosed BDT 13,365,006 as "Salary & Benefits". However, the Association did not follow in some cases section 86(1) of Income Tax Act, 2023 for deducting tax from employee's salary.

Our opinion is not modified in respect of the above matters.

#### **Other Matters**

1. The Association did not submit "Return of Withholding Tax" to the Deputy Commissioner of Taxes of as per section 177 of Income Tax Act, 2023.
2. The Association does not have a complete ERP solution but uses a Tally system for which no network diagram and audit trail logs were found and inadequate password security was observed. The management of the Association is working on the system to fix the issues with the system and develop a complete ERP solution.

#### **Other Information**

Management is responsible for the other information. The other information comprises the information included in the Board of Directors Report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon since we have not been provided with any such information.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard. However, when we read the Directors Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

2

### **Responsibilities of Management and Those Charged with Governance for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs and other applicable laws and regulations as explained in note # 3 to the financial statements, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing its ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Association or to cease operations or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Association's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the association's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on

the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Association to cease to continue as a going concern.

- Evaluate the overall presentation, structure, and content of the Association's financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

#### **REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS**

We also report that:

- We have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purpose of our audit and made due verification thereof;
- In our opinion, proper books of accounts as required by law have been kept by the Association so far as it appeared from our examination of those books; and
- The Association's statement of financial position and statement of profit or loss and other comprehensive income together with Notes 1 to 31 dealt with by the report are in agreement with the books of account.
